MEMORANDUM FOR: [REDACTED]

Here, belatedly, is a KIQ # 4 Strategy put together from notes I took at the community meeting we had some time ago on a 1st draft. For any improvement either of you may be able to make; then we'll get it out.

Jim-- you were going to discuss (with OPR?) consolidating a set of indicators (trade, exchanges border military activities, border negotiations, navigation negotiations, polemical themes & levels) for community to use in measuring state of S-S relations, and possible conversion of the S-S Bayesian exercise into something more useful. Have you had a chance ~~22 Dec 75~~ (DATE) to do any looking into that? [REDACTED]
